DETAILED ACTION

Claim Objections

1. Claims 1-6 are objected to under 37 CFR 1.75(c), as the term “fixedly” fails to further limit the structure of the claimed device. The term “fixedly” is a relative term of degree, and as such does not provide further structure.

Allowable Subject Matter

2. The following claim drafted by the examiner and considered to distinguish patentably over the art of record in this application, is presented to applicant for consideration:

Claim 1 (proposed) A hand tool comprising:

a head portion having two jaw portions pivotally connected with each other by a pivot pin;

a handle portion pivotally mounted on the head portion and having two holding grips each having a first end pivotally mounted on an end of a respective one of the two jaw portions of the head portion by a positioning pin and a second end formed with a counterbore;

a mounting tube [fixedly] mounted in the counterbore of [on] the second end of a first one of the two holding grips of the handle portion;

a push rod [fixedly] mounted in the counterbore of [on] the second end of a second one of the two holding grips of the handle portion and slidably mounted in the mounting tube; and

an elastic member mounted in the mounting tube and urged between the mounting tube and the push rod.

Art Unit: 3723

3. The following is a statement of reasons for the indication of allowable subject matter: It is the examiner's opinion that the proposed claim clearly defines the applicant's invention, and distinguishes the claimed invention over the prior art of record, as the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a holding grip having a counterbore for receiving the mounting tube or the push rod, together in combination with the rest of the limitations in the independent claims.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
